

Coral Hibiscus To Be Official Flower

The coral hibiscus will be the official flower of the incoming gubernatorial administration.

It is the favorite buttonhole flower of Governor Charles J. McCarthy, and hardly a day passes that he does not wear this unusual type of hibiscus blossom. No matter what the state of the weather is, the coral hibiscus adorns the buttonhole of the coat, whether it be dark cloth or cool white linen.

Many of the new Governor's friends propose to make his inaugural a floral one, and every Democrat, and all the Governor's Republican friends—and they are legion—will appear that day with a hibiscus in his buttonhole.

Governor McCarthy smiled yesterday when told of the decision of his friends, but agreed that if they liked the hibiscus they were merely showing their appreciation of a beautiful floral to which he has been loyal ever since he has been in the Hawaiian Islands.—Advertiser.

Oil Tanker Carries Maui Pines To Coast

For the first time a Standard Oil tank steamer has been pressed into service to relieve the freight congestion from the Islands. When the tanker J. F. Moffatt sailed from Kahului on Monday she carried a large consignment of canned pineapple from the Haiku Fruit & Packing Company's plant, and thus relieved the company from considerable embarrassment due to the failure of the Manoa to visit Maui this trip. The cargo of fruit was carried in the section of the ship used in bringing cases of kerosene and gasoline to the Islands. The fruit, which is destined for eastern points, will be delivered to the trans-continental railroads at Crockett, California.

There was no time for discharging her Maui cargo when she left.

Censorship Tightens On Cable Messages

Owing to the heavy delay in cable transmission the following order has been issued to the Commercial Pacific Cable Company by the censor:

"Hereafter no personal messages, except those relating to death or serious illness, will be allowed from Honolulu to San Francisco, or the Orient. It is requested that all business that can be accomplished by letter be diverted from the cable."

For some months past the wireless service with the coast has been barred to all except government business and press dispatches. The cable has therefore become so overcrowded that the new order had to be issued to relieve the situation.

BOND MONEY OFFERED FOR PART OF BELT ROAD

Whether or not Maui people can be permitted to subscribe to a portion of the loan fund appropriated for a specific purpose, and the county apply the resulting proceeds to the construction of a part of the work only, is a matter that is being considered by the county supervisors this week. The matter will have to be passed upon by the territorial treasurer and attorney general.

If the plan is declared legal, the East Maui Irrigation Company has signified its willingness to take the \$15,000 or \$16,000 of the \$100,000 authorized for the continuance of the belt road east of Kailua, needed to build about the first four-fifths of a mile of the proposed thoroughfare. The company is anxious to have this much of the road built. It includes a concrete bridge over Naillihale stream.

After the test the Scouts gathered around the table and enjoyed a hobo stew, while games were played, etc. The boys say "Do it again."
